Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Growth Energy v. Regan*, No. 1:22-cv-01191 (D. D.C.).

II. Additional Information about the Proposed Consent Decree

The proposed consent decree would establish deadlines for EPA to establish volumes for the renewable fuel program for 2023: September 16, 2022, for EPA to sign a proposed rule, and April 28, 2023, for EPA to sign a final rule. EPA is obligated to establish the 2023 renewable fuel program volumes under 42 U.S.C. 7545(o)(2)(B)(ii). For years after the statutory volumes in 42 U.S.C. 7545(o)(2)(B)(i) cease, the Agency is statutorily obligated to establish the renewable fuel program volumes “no later than 14 months before the first year for which such applicable volume will apply.” Under this provision, EPA was required to establish the volumes for 2023

by October 31, 2021. EPA intends to establish applicable percentage standards for obligated parties for 2023 in the same rulemaking that establishes volumes for 2023.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.

Use of the <https://www.regulations.gov> website to submit comments to EPA electronically is EPA's preferred method for receiving comments.
